2014, The Year Of The Horse

2014 is year of the Horse and people associated with the horse were born in the years 2002, 1990, 1978, 1966, 1954, 1942 and 1930.

People born in the horse year are known to be good communicators and very popular among friends, although they can be stubborn and not accepting of failure. However, the impulsive behaviour of the horse can lead to recklessness, so stay away from gambling and speculations. Work: Those in positions of authority will do well, but chancy businesses, like the stock market, are a bad idea.

Wealth: Don't expect to make a lot of money, and value the income you have.

Relationships: There won't be a

lot of excitement in your love life, and if you are engaged, you might want to delay your marriage until next year.

Health: Watch your health this year — you'll get tired and can catch bugs easily. Make exercise and rest a priority.

The above are like horoscopes so do take them with a grain of salt. If you are interested in learning about the other zodiac signs visit: http://www.huffingtonpost.ca/2014/01/09/chinese-new-year-2014-horse_n_4568979.html.

We at Ashton are excited for what 2014 has in store for us and the new adventures ahead. Ashton Service Group would like to wish everyone in the community a very happy new year in 2014.

A message from Brian Williams

Wishing you all a safe and fun filled long weekend.

Tips for Plugged Sinks and Tubs

Answer:

Sinks and tubs take away a lot of stuff, including dirt, soap, food, hair etc — lots of materials that can build up in the drain. We receive a fair number of calls from people to fix their plugged kitchen or bathroom sinks. We recommend trying a few of these tips to see if they can help.

First you can try and use a drain cleaner or a plunger when water won't go down the drain. But try a simple cleaning by feeding a drain snake (if you don't have one, try straightening a wire clothes hanger) a few inches past the stopper, twirl it around down in the drain and slowly pull it out.

There's a good chance you will snag a clump of something that is preventing the water from draining. Keep doing this a few times until the water drains quicker or you cannot remove anything else. This would be a good time to use a drain cleaner or a combination of baking soda and vinegar and pour it down the sink, then followed by very hot, but not boiling water to help break down any other materials in the pipe.

BC Family Day

We hope everyone had a great Family Day off on Monday February 11th!

Ashton Service Group wishes you a safe and fun-filled holiday!

This was only our 2nd Family Day since it became a BC holiday in 2013. Imagine if we didn't have this holiday and had to wait until Easter in March for the next one...

Hope you spent the day doing what you wanted with or without your family and friends.

Winner Winner !

Here at Ashton, we believe in providing high quality materials and exceptional customer service. So it's really no surprise that Ashton Service Group has won the Home Stars 2013 Best Drain Services Award!

We provide quality service and our countless shelves of awards proves it.

To celebrate the winning of this award and to thank all our royal customers who voted for us, we would like to offer \$150 off endless hot water tanks till the end of April 2014!
